Praise - Prayer- and Action (all in one)

Praise is truly due to the Lord for the *great shake and wakeup call He has done in this country by exposing just how far culture has gone in the direction of insanity and immorality. Now many people are standing up, speaking out, and stepping forward in opposition to the corruption found in this country.*

Prayer and repentance has gone up to God to heal this nation, and hence the devil is trying to scare many good people with arrests of parents speaking up at school boards, or people praying in front of abortion clinics, or with legal actions being taken against some running for political office. In spite of all this, people are still taking action against the destroyers of our country.

Action was recently seen as many Texans took to the polls to vote in the primaries last March. We the people spoke, and many positions were flipped or pushed down the road to Runoff elections beginning May 20th and ending May 28th. Liberal papers said things like, "...shockwaves rippled up and down the ballot as incumbent state House members, judges and other state leaders were forced into runoffs or defeated outright" ...at least nine House Republicans appeared to have lost their primaries on Tuesday evening. Another eight members, at least, were also forced into runoffs..." The Texas Tribune

PRAYER & ACTION are still needed due to the upcoming primary runoff elections. We the people must not become slack. Therefore, we in the CIT have decided to give you the benefit of our research into these elections across Texas so that you can Pray for those standing up for our freedoms and Act by calling friends and family who may live in these districts and encouraging them to vote. Some of you may decide to contribute financially to their campaigns. Advertising is not cheap! Most of these races are very close. We need to remove Republicans In Name Only (RINO).

United States House of Representatives

District 12

*Craig Goldman (incumbent- considered a RINO) received 44% of votes in Primary
John O'Shea (endorsed by Ken Paxton, SID miller, Lt Gen. Michael Flynn) received 26% of votes in Primary
